August 4, 2008

To Whom It May Concern:

Specialty Cabinets, Inc. completed an approximately \$1.4 million project for Schaller Construction during 2007 and 2008. Cabinets and installation were completed on time and with attention to quality. An accelerated schedule needed to be implemented during a segment of the project and Specialty Cabinets, Inc. applied the resources necessary to also meet these deadlines. When the ownership of the project made some minor changes early in the construction, Specialty Cabinets responded quickly and reasonably.

Specialty Cabinets, Inc. was of great assistance during the design phase of the project in the value engineering process to maintain the style and quality needed, while reducing the budget. During the course of construction and installation, any issues that did arise were addressed quickly and completely.

I look forward to the opportunity of working with Specialty Cabinets, Inc. again on future projects and highly recommend them to others seeking a professional and qualified company with integrity.

Sincerely,
