July 30, 2008

To whom it my concern,

I have known Mr. Rick Johnson for over 12 years and have had the pleasure of working with him and his company on several very important projects. I first met him back in October 1996 when we were on a fast track opening of The Westin Resort Guam. The hotel building had been built but not occupied for almost four years when Westin was contracted to manage the property for the owner. It goes without saying that there were many things that needed to be done to the hotel before we could open in December 1996. We were very fortunate that Mr. Rick Johnson and his company (Johnson & Worthington) were operating on Guam at that time. There was a lot of work that needed to be done to meet the quality standards of a 5 star Westin Resort in a very short time. The quality of the work that Johnson & Worthington did was outstanding and even after 12 years the majority of the work still looks as good today as it did back in 1996. I continued to work on Guam until 2001 and in those 5 years we continued to use the services of Rick Johnson and Johnson & Worthington. I think the most important factor was not only the quality of the work but it was the integrity of Mr. Johnson and his company. They always provided us with a fair price and to my knowledge were always able to meet their deadlines!!

I would highly recommend Mr. Rick Johnson to anyone whose is considering using him because you would not be disappointed!! If you require any additional information or would like to contact me I would be glad to answer any questions or provide more information!!

Sincerely,

Chuck Abbott
