**Subject: Cabinets & Installation**

**Dear Rick,**

Elaine & I just wanted to say thanks, for a job well down, on the design & installation of all our cabinets in our house in downtown Aspen. I must say we were somewhat anxious dealing with the manufacturer 700 miles away in Phoenix. But, from the time you arrived for the measuring and design of the cabinets with our contractor, we all had a positive feeling and one of confidence the job would be completed to our satisfaction.

With the arrival of your installation truck on schedule, and the careful taking of inventory of all parts & cabinets, it was a professional installation to say the least. I appreciated how your office handled the few moves & changes we needed, without any annoyance and the "will do" attitude. It made our total installation extremely satisfying.

We have received numerous compliments on the cabinets from our Aspen friends, and they are a critical crowd. To be sure, we absolutely love the finished product and your professionalism. We are looking forward to the next house and would not hesitate to use your services again.

**Best regards,**

**Paul Sandler**
