Rick:

Enclosed please find a check for the outstanding balance. I want to express to you my great admiration for the quality of your workmanship and staff. Even though Chuck recommendation your firm, it is always an "unknown" when you enter any new relationship with tradespeople. I had used the same cabinet maker for more than 25 years because I always knew that I never had to worry about the quality of the end result. He was a "craftsman" and I could turn my back and knew that I would get a fair shake and a fabulous end product.

It give me great pleasure to say that I have found the same attributes in you and the staff that your employ. Every one of the people on my job clearly desired to do no less than their very best; had a wonderful disposition and personality; took great pride in their work and had the skills to execute to perfection. What you created simply is beautiful. For that, Corky and I thank you.

It will be my great pleasure to recommend you whenever I have the opportunity. Even though I know you know what your organization created, I do hope you will stop by and see the work, in its final assembly, in person. I will let Chuck know how very pleased I am with his recommendation of Specialty Cabinets.

With our warmest regards,
